DELIVERING THE BEST

UCSI University, located in the heart of Malaysia's capital city, Kuala Lumpur, is an education hub that showcases the beauty and tranquility of the country. We, the staff at UCSI, take pride in providing our clients and guests with the best experiential learning experience. Our global community is characterized by diverse cultural integration and unique, industry-driven programs.

Programme Title

Intensive English Programme & Cultural Experience for Learners

Programme Description

This programme is intended for learners who want to learn English in an overseas environment to establish their English language proficiency with significant emphasis on the development of both receptive and productive skills; grammar, vocabulary, reading and writing, listening and speaking. It is directed at individuals who have already acquired a basic knowledge of English and the emphasis is on listening and speaking skills.

Additionally, this programme provides English learners with the opportunity to sharpen the fifth skill in language learning (i.e.: culture), coupled with effective communication skills and the use of modern technologies.

This programme is learner-centred and requires personal commitment both in the classroom and when in learning activities outside the classroom; learners are encouraged to interact and socialise using English by putting it into practice, and participating in programmes organised to complement the learning experience.

English Proficiency Levels & Programme Structure

Comprehensive English Learning Pathway

- We currently offer four proficiency levels, ranging from Pre-Intermediate to Intermediate, ensuring appropriate progression for learners at different stages of language development.

- As the proposed Holiday Programme is designed to run for one month, students will typically complete one course during the programme, depending on their English proficiency upon entry.

- The 1 month English Holiday Programme follows a structured 4-week model, providing:

  - 3 hours of face-to-face instruction per day
  - Buddy Session
  - Cultural Visit
  - Student Activities

Learning Objectives

By the end of the programme, learners should be able to:

* improve the basic four skills of learning English, with an additional fifth skill
* develop and improve their English listening and speaking skills
* develop and improve communication skills

Learning Outcomes

Upon successful completion of the programme, learners will:

* have an ability to interact and communicate confidently in English
* have a higher level of competence in speaking and listening
* a heightened sense of appreciation for diversity and cross-cultural living

Level

Pre-intermediate to Intermediate

Mode of Delivery

Face-to-face active learning class time, classroom discussion/participation and peer learning practices.

Assessment, Placement & Certification

Quality Assurance Through Continuous Assessment

- Prior to the commencement of the programme, all students are required to complete a **computer-based English Placement Test (EPT)** to accurately determine their proficiency level and class placement.
- Student progress is monitored through **computer-based progress assessments** conducted throughout the programme.
- At the end of the course, learners sit for a **final computer-based assessment** to evaluate their overall language development.
- Upon successful completion, students are awarded a **certificate of achievement** indicating the English proficiency level attained during the programme.

Assessment

Participants' performance will be graded on continuous assessments and classroom participation.

COMPONENT	PERCENTAGE (%)
